

## NOTICE OF INTENT

Department of Environmental Quality  
Office of the Secretary  
Legal Affairs Division

Public Notice Requirements for General Permits  
(LAC 33:III.513) (AQ267)

Under the authority of the Environmental Quality Act, R.S. 30:2001 et seq., and in accordance with the provisions of the Administrative Procedure Act, R.S. 49:950 et seq., the secretary gives notice that rulemaking procedures have been initiated to amend the Air regulations, LAC 33:III.513 (Log #AQ267).

The department is allowed by regulation to issue general permits intended to cover numerous similar sources or activities. General permits are issued in accordance with LAC 33:III.519 and, prior to issuance, must undergo public notice and review by affected states and EPA in accordance with LAC 33:III.531 and 533. Applicants applying for authorization to operate under the general permit must also publish a notice of the application in a newspaper of general circulation in the local area where the source is or would be located. These procedures are appropriate for general permits intended to cover Part 70 sources. However, for general permits intended to cover minor sources, review by affected states and EPA is not necessary, nor is publication of a notice of the application. This rule revision specifies that the aforementioned requirements are only required for general permits intended to cover Part 70 sources. This rule is also being proposed as a revision to the Louisiana State Implementation Plan for air quality. The basis and rationale for this rule are to clarify the public notice requirements for general permits.

This proposed rule meets an exception listed in R.S. 30:2019(D)(2) and R.S. 49:953(G)(3); therefore, no report regarding environmental/health benefits and social/economic costs is required. This proposed rule has no known impact on family formation, stability, and autonomy as described in R.S. 49:972.

A public hearing will be held on July 25, 2006, at 1:30 p.m. in the Galvez Building, Oliver Pollock Conference Room, 602 N. Fifth Street, Baton Rouge, LA 70802. The hearing will also be for the revision to the State Implementation Plan (SIP) to incorporate this proposed rule. Interested persons are invited to attend and submit oral comments on the proposed amendments. Should individuals with a disability need an accommodation in order to participate, contact Judith A. Schuerman, Ph.D., at the address given below or at (225) 219-3550. Free parking is available in the Galvez Garage with a validated parking ticket.

All interested persons are invited to submit written comments on the proposed regulation. Persons commenting should reference this proposed regulation by AQ267. Such comments must be received no later than August 1, 2006, at 4:30 p.m., and should be sent to Judith A. Schuerman, Ph.D., Office of the Secretary, Legal Affairs Division, Box 4302, Baton Rouge, LA 70821-4302 or to FAX (225) 219-3582 or by e-mail to [judith.schuerman@la.gov](mailto:judith.schuerman@la.gov). regulation can be purchased by contacting the DEQ Public Records Center at (225) 219-3168. Check or money order is required in advance for each copy of AQ267. This regulation is available on the Internet at [www.deq.louisiana.gov](http://www.deq.louisiana.gov) under Rules and Regulations.

This proposed regulation is available for inspection at the following DEQ office locations from 8 a.m. until 4:30 p.m.: 602 N. - A. Provide a brief summary of the content of the rule (if proposed for adoption or repeal) or a brief summary of the change in the rule (if proposed for amendment). Attach a copy of the notice of intent and a copy of the rule proposed for initial adoption or repeal (or, in the case of a rule change, copies of both the current and proposed rules with amended portions indicated).

LAC 33:III.513 allows LDEQ to issue general permits intended to cover numerous similar sources or activities. General permits are issued in accordance with LAC 33:III.519 and, prior to issuance, must undergo public notice and review by affected states and EPA in accordance with LAC 33:III.531 and 533. Applicants applying for authorization to operate under the general permit must also publish a notice of the application in a newspaper of general circulation in the local area where the source is or would be located. These procedures are appropriate for general permits intended to cover major sources and certain other sources of air pollutants known as "Part 70 sources." However, for general permits intended to cover minor sources, review by affected states and EPA is not necessary, nor is publication of a notice of the application. This rule revision specifies that the aforementioned requirements are only required for general permits intended to cover Part 70 sources.

- B. Summarize the circumstances which require this action. If the Action is required by federal regulation, attach a copy of the applicable regulation.

It is necessary to state clearly that for general permits intended to cover minor sources, review by affected states and EPA is not necessary, nor is publication of a notice of the application.

- C. Compliance with Act II of the 1986 First Extraordinary Session

- (1) Will the proposed rule change result in any increase in the expenditure of funds? If so, specify amount and source of funding.

No, this proposed rule will not result in any increase in the expenditure of funds.

- 2) If the answer to (1) above is yes, has the Legislature specifically appropriated the funds necessary for the associated expenditure increase?

(a) \_\_\_\_ Yes. If yes, attach documentation.

(b) \_\_\_\_ No. If no, provide justification as to why this rule change should be published at this time.

This question is not applicable.
